Board of Directors AFS Equities, Inc.

In planning and performing our audit of the financial statements and supplemental schedules of AFS Equities, Inc. for the year ended December 31, 2003, we considered its internal control, including control activities for safeguarding securities in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange commission (SEC), we have made a study of the practices and procedures followed by the Company including tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

- 1. Making quarterly securities examinations, counts, verification, and comparisons.
- Recordation of differences required by rule 17a-13.
- Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of the inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that error or fraud in the amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including control activities for safeguarding securities, that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2003, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, and other regulatory agencies that rely on the rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.

FINANCIAL STATEMENTS AND SUPPLEMENTARY INFORMATION DECEMBER 31, 2003 AND 2002

Independent Auditors' Report

To the Board of Directors of AFS Equities, Inc.
Birmingham, Alabama

We have audited the accompanying balance sheets of AFS Equities, Inc., as of December 31, 2003 and 2002, and the related statements of income (loss), stockholders' equity, and cash flows for the years then ended that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above presents fairly, in all material respects, the financial position of AFS Equities, Inc. as of December 31, 2003 and 2002, and the results of its operations and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the company will continue as a going concern.

As reported in the financial statements, the company incurred a net loss of \$29,059 and \$71,574 for the years ended December 31, 2003 and 2002, respectively. During 2003 and 2002 stockholders' purchased \$46,791 and \$60,698, respectively, of common stock. The Company used this additional capital to meet current operating obligations. Based on these facts, substantial doubt exists about the likelihood of the Company to continue as a going concern without the continued ability of the shareholders to raise capital.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in Schedules I, II and III is presented for purposes of additional analysis and is not a required part of the basic financial statements. The information contained in Schedules I and II constitutes supplementary information required by rule 17a-5 under the Securities Exchange Act of 1934. Such information contained in Schedules I, II and III has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

NOTES TO FINANCIAL STATEMENTS

1. Summary of significant accounting policies

Company's activities

The Company was incorporated September 29, 1993 as a broker and dealer in securities. The Company engages in allowable activities of a broker or dealer maintaining a minimum net capital requirement of not less than \$5,000 as per SEC Rule 15c3-2(vi).

Basis of accounting

The financial statements of AFS Equities, Inc. are prepared using the accrual basis of accounting where revenues are recognized when earned and expenses are recognized when incurred. This basis of accounting conforms to generally accepted accounting principles.

Cash equivalents

The Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

Use of estimates

The process of preparing financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

Depreciation

The cost of property, plant and equipment is depreciated over the estimated useful lives of the related assets. Depreciation is computed primarily on the straight-line method.

Advertising

Advertising costs are expensed as incurred.

Accounts receivable

The Company considers accounts receivable to be fully collectible; accordingly, no allowance for doubtful accounts is required. If amounts become uncollectible, they will be charged to operations when that determination is made.

2. Reserve requirements

The Company is not obligated to report under SEC Rule 15c3-3 since it does not maintain customer accounts or hold securities. Therefore, the Company does not have a reserve requirement nor does it have any information relating to the possession or control requirement under Rule 15c3-3.

NOTES TO FINANCIAL STATEMENTS

3. Minimum capital

Under SEC Rule 15c3-1, the Company is required to maintain net capital of not less than \$5,000. At December 31, 2003 the Company was not in compliance with this requirement. The Company has a net capital deficit of \$2,355 below the minimum net capital required as defined by SEC Rule 15c3-1. At December 31, 2002, the Company's net capital as defined by SEC Rule 15c3-1 was \$2,427 in excess of minimum net capital required. The excess (deficit) net capital at 1500% was (\$217) and \$2,427 at December 31, 2003 and 2002 respectively, and the percent of aggregate indebtedness to net capital was 1,624% and 1,046%.

4. income taxes

Because the Company reports income for tax purposes on a cash basis, temporary differences exist between the recognition of certain income and expense items for income tax purposes and financial reporting purposes. The Company has Federal and State net operating loss carryforwards available to offset income in future years in the amount of \$398,086. This amount expires beginning in the year 2010.

5. Related party transactions

During the year ended December 31, 2003 payments totaling \$106,340 were paid to a related company for accounting and management services. The President and majority shareholder of AFS Equities, Inc. is also the President and majority shareholder of the related company.

6. Lease Commitments

In May of 2002 The Company entered into a lease agreement for its current office facility. The lease term is for 60 months with monthly payments of \$1,750.
